Rare Bulb Species

SUITABLE FOR USE IN AMERICAN ROCK GARDENS

Bulbs for American Rock Gardens

MANY Rock Gardens seem deserted and practically bereft of bloom in the early days of Spring. When the chill winds of Winter have passed, they should leave in their wake, a galaxy of delightful floral gems, such as Eranthis, Chinodoxas, Galanthus, etc. The "Snow Drops," or Galanthus, are reminiscent of the departed or fast disappearing snow, while the Chinodoxas and Scillas push forth blossoms that rival the deepest azure Summer skies of which they are harbingers. The various Tulips and Crocus vie with each other in making splashes of color, that for sheer brilliancy, outshine the most bizarre of Oriental Rugs.

With the bulbs enumerated in this list, you can make a Garden gay and colorful long in advance of the cohorts of the Spring Alpine Plants, and they will fill a gap in the lean Autumn days with the Autumn flowering Crocus, of which we offer such a varied collection.

In presenting this—our annual—list of bulbs suitable for use in American rock gardens, we again call attention to several matters which are worthy of special comment. All bulbs sold by us are first grade Holland grown stock. The varieties listed have been chosen with discriminating taste and are offered with the assurance that if given reasonable care and attention, they will prove entirely satisfactory.

WE CARRY NO STOCK OF THESE BULBS and all orders must reach us on or *before July 20th*. Orders placed early will naturally insure greater selection of varieties. All prices in the accompanying price lists are F. O. B. our premises, Bergenfield, N. J.

TERMS: Cash with order. No cancellations accepted after July 20th, as on that date we cable our requirements to our Holland Agents.

We advise ordering substitute varieties, as some species are very rare and may not be available in large quantities.

SHIPMENTS: We make shipments promptly upon arrival in this Country—usually in early September. Bulbs should be planted promptly on receipt by you.

Chinodoxas

"Glory of the Snow"

Before the Winter's snows have entirely disappeared, one may see these beauties peeping forth, and a few warm Spring days will coax them to flaunt their azure flowers in the wind. Provide them with a warm, sunny spot for early bloom. We list the following named varieties:

GIGANTEA.

Exquisite large size, azure blue stars, remaining in bloom over a long period. Very fine type. Per 10—75c Per 100—\$6.00

LUCILLEA.

A most satisfactory kind with fine light blue flowers with white centers—a good sort. Per 10—40c Per 100—\$3.00

alba.

A snow white counterpart of the above, chaste and lovely. Quite uncommon. Per 10—\$2.25 Per 100—\$20.00

Eranthis

"The Winter Aconite"

The yellow of the Eranthis—seen at best in broad patches—bring advance visions of the glorious sunshine of Summer. One of the first of the bulbs to bloom. They remain in bloom for a considerable time, and, as if to repay us for the passing of their blooms, these bulbs have the most quaint leafage, which is artistic and unusual.

CILICICA.

An early harbinger of Spring, bring its floods of sunshiny yellow blossoms and lovely foliage.

Per 100—\$2.50 Per 1000—\$20.00

HYEMALIS.

Another early bloomer, with flowers of a somewhat more brilliant yellow. Robust type.

Per 100—\$2.50 Per 1000—\$20.00

Per 10—\$2.50 Per 100—\$20.00

Galanthus

"Snow Drops"

While wintry blasts still blow, the cheery snow drops bid us hope, and tell us Spring is not far distant. They rival the fast retreating snows in the purity of their white blossoms and surely are most welcome.

CILICICUS.

A very early kind. Blooming before the snows are melted. A new introduction from Asia Minor. Per 10—\$1.25 Per 100—\$10.00

ELWESII.

The best of the gems, large flowered type—white. Per 10—\$1.00 Per 100—\$7.50

FOSTERI.

Shining green leaves and beautiful globular shaped flowers. Per 10—\$2.00 Per 100—\$15.00

IMPERATI.

While somewhat smaller than the above, they are none the less splendid. Per 10—75c Per 100—\$6.50

NIVALIS.

The old-fashioned snow-drop of Grandma's day—lovely. Per 10—50c Per 100—\$4.50

Flore pleno.

A rare double flowered type, that is very charming. Per 10—75c Per 100—\$6.00

Lilium

Real useful plants for small and large rock gardens, when placed between large boulders or rocks. They give, in an airy manner, the relief so often needed amongst the dwarf and creeping carpeters. The varieties listed are all chosen for their graceful habits and pretty flowers.

CROCUM.

The Orange Lily from the Swiss Alps—1½ to 2 ft., with upright bells. each 50c Per 10—\$4.50

MARTAGON.

Another Alpine specie, climbing up to 10,000 feet in the Alps, where it grows on the rocky slopes. A fine variety, with purple flowers. 1½ ft. each 40c Per 10—\$4.00

album.

White variety of the above. each \$1.00 Per 10—\$10.00

PYRENAICUM AUREUM.

A neat grower, with beautiful yellow flowers and red anthers, shining green leaves—2½ to 3 ft. each 75c Per 10—\$6.50

PYRENAICUM RUBRUM.

Scarlet variety. each \$1.00 Per 10—\$8.75

TENUIFOLIUM.

The dwarfiest of the tribe, with very fine leaves and scarlet flowers. each 50c Per 10—\$5.00

UMBELLATUM GRANDIFLORUM.

A good and showy variety, with upright orange flowers. 2 ft. Showy when planted in clusters of 5 to 10.

each 35c Per 10—\$3.25

All these varieties will do well in semi-shade, and like a well-drained soil with a handful of sand under each bulb. The Rock Garden compost suits them to perfection (1-3 loam—1-3 leaf mold—1-3 grit and sand).

Muscari

“The Grape Hyacinths”

Dainty little mites that materially aid in bringing lovely blue color to adorn the Garden for the Spring Festival. Of easy culture in any well-drained spot. Multiply rapidly in Rock Garden.

AZUREUM.

One of the earliest flowering bulbs—bright blue, that rivals the blue birds' plumage.

Per 10—60c Per 100—\$5.50

BOTYROIDES.

Splendid free growing kind with fine blue color.

Per 10—50c Per 100—\$4.40

album.

Chaste white flowering, uncommonly lovely.

Per 10—75c Per 100—\$6.00

Carneum.

As free flowering as the above, with fresh colored flowers.

Per 10—\$1.50 Per 100—\$12.00

HEAVENLY BLUE.

Rivalling the bluest of Spring skies. Real little gems, early bloomers.

Per 10—50c Per 100—\$4.00

MOSCHATUM FLAVUM.

A new introduction very curious and interesting. The flowers open purple and turn deep yellow.

Per 10—\$2.00 Per 100—\$15.00

PLUMOSUM.

Feathered “grape hyacinth,” violet blue.

Per 10—\$1.50 Per 100—\$12.00

Scillas

“Squills”

Thoreau once said “Scillas surely must have borrowed the blue of the sunniest skies for their pigment coloring,” and truly you will agree with him when you see the abandon with which these early bloomers give of their best.

BIFOLIA.

A very early bloomer, with a beautiful deep color—small, charming. Wild in the Alps—will seed itself. Good for half shade.

Per 10—50c Per 100—\$4.50

CAMPANULATA.

Delft blue, choice and delightful.

Per 10—50c Per 100—\$4.50

alba.

The white form of this little beauty.

Per 10—50c Per 100—\$4.50

CAMPANULA ROSALIND.

A rare pink form that is lovely. Per 10—75c Per 100—\$6.50

MARITIMA.

A fall flowering kind, with purple and white flowers in long spikes.
Per 10—50c Per 100—\$4.50

NUTANS.

The English "Blue Bells," showy, robust and delightful.
Per 10—60c Per 100—\$5.50

alba.

The white form of the above—lovely and chaste.
Per 10—50c Per 100—\$4.50

Blush Queen.

A light pastel pink form—rare and charming.
Per 10—80c Per 100—\$7.00

PERUVIANA.

The hardy Blue Cuban lily—a rare type—an acquisition.
Per 10—\$1.50 Per 100—\$14.00

alba.

White form of the above. Per 10—\$1.50 Per 100—\$14.00

SIBERICA.

The Siberian squill. Earliest of all—lovely blue.
Per 10—65c Per 100—\$5.50

Atrocoerulea.

Large spikes of deep blue flowers, taller than Siberica. A good sort.
Per 10—\$1.75 Per 100—\$16.00

Collection of Ground Covers for Bulbs

So many of our bulb customers have asked us to suggest the best plants to use as a ground cover for bulbs, that we have decided to offer a collection with this list. All these perennials are very dwarf, and of first importance. They prevent the Spring rains from spattering the flowers with mud, hold the moisture at a time when the bulbs need it most for good flowering, and later hide the leaves of these bulbs and help keep a tidy aspect over the Rock Garden.
